

The Showpit

Queenslands longest running snake pit

Our reptile presentations have been saving lives and delighting people for over 10 years.

We have received many commendations on our services, attention to detail, range of reptiles, information given to patrons, attraction to patrons and being easy to work with.

We are one of the few entertainers that are not just for children, but are also there for adults as well.

We are also one of the few entertainers that are present on site to interact with from gates opening to around 6:00 PM.

We give 4 presentations during the day, but there is always someone on site to talk to your patrons and there are always reptiles on display.

Our equipment and animals are kept in excellent condition and we are evolving all the time.

The only extras that your patrons have to pay for is our safety products.

Requirements are: Space 8 x 8 meters and access to power.

We are professional and give the best value for service compared to other reptile displays
